#### THE JAMES GANG.

Confession of Dick Liddell and Clarence Hite.

Kansas City, September 11.—In consequence of the recent publication of Dick Liddell's statement regarding the history of the James gang, Police Commissioner Craig of this city, has given out the confession of Clarence Hite made to the officers at Jefferson City, and which is published to-day. Clarence Hite, the youngest of the band, was captured in Kentucky shortly after Liddell's surrender. Being confronted by evidence of his complicity in the Winston and Blue Cut robberies, he pleaded guilty in the Daviess county criminal court and was sentenced to twenty-five years. This confession was made before Gov. Crittenden, Commissioner Craig and Sheriff Timberlake of Clay county, soon after Hite was incarcerated in the penitentiary and before Jesse James was killed. Last February Hite was pardoned on account of failing health and died in a few days after. He made the statement just before his death to a reporter, which was published at the time, which corresponds substantially with that published to-day as given to the officers. This account of the movements of the gang during Hite's connection with it corresponds in all essential particulars with Liddell's story and corroborates in detail Liddell's testimony at Gallatin implicating Frank James in the Winston robbery. It also recounts Frank's participation in the Blue Cut robbery as told by Liddell, and for which James is yet to be tried. Charley Ford took part in the Blue Cut robbery, and is expected to testify, as will Liddell when that case is heard.

#### NORTHERN FROSTS.

Summary of Damage to Crops in the North-west.

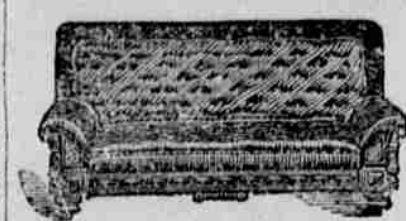

Chicago, September 11.—The Farmers' Review publishes to-morrow the following: "Frosts of greater or less severity have been experienced throughout Minnesota, Wisconsin, Northern and Northwestern Iowa, Northern Illinois and Indiana, and the entire state of Michigan, causing serious injury to late corn. This injury is impossible at this writing to accurately determine. In all the territory visited by frost, some fields were fully matured that they received no damage. In many parts corn on high ground escaped injury, while that on low ground was severely hurt, but it will be safe, we think, to estimate the injury in the territory named at twenty-five per cent of the estimated crop. Other minor crops, such as tobacco, hops, tomatoes and other tender garden vegetables, as well as grapes, were greatly injured or utterly ruined, while in Kansas, Nebraska, Southern and Western Iowa, Southern Illinois and Indiana and other portions of the corn producing country, no material injury is reported."

#### Wind Storm at Wilmington.

Wilmington, N. C., September 11.—A severe wind storm has been prevailing here during the past thirty hours, reaching its highest velocity of forty miles at 7 a. m. The velocity now is thirty-two miles. No serious damage reported in the city or harbor. Wires down; no news yet from the coast.

#### CRIMINAL CALENDAR.

A Jealous Husband's Insane Fury—Shooting His Wife, Brother-in-Law and Himself.

St. Louis, September 11.—Henry Blessing, No. 141 Cass avenue, a steamboat engineer fifty years old, has a handsome wife of twenty-three of whom he is intensely jealous. He also has a brother-in-law, William Shelton, who has made his home with them for some time past. Blessing has not been working for a month past and has been drinking, quarrelsome and moody. Last night, after all had retired, he quarreled with his wife, fired a pistol at her without effect and then slashed across her abdomen with a razor, inflicting a frightful wound several inches long. Her brother then rushed in, and he fired two shots, one of which struck Shelton in the face, below the left eye, the other penetrating his lungs. Not satisfied with this, Blessing slashed both sides of Shelton's throat with a razor and laid his abdomen open from the navel to the short ribs. Blessing then went to the garret and cut his own throat from ear to ear, but not touching important arteries. Both men will die. Mrs. Blessing will probably recover.

#### A COLORED BORGIA.

Calro, Ill., September 11.—Last night Kate Cotton, colored, because Al Miller wouldn't marry her, went to the house of Louis M. Murray, Miller's father-in-law, and asked for a cup of coffee. Finding none made, she volunteered and made a pot full. After making it she left the house and said she would return soon for a cup. The family sat down to supper, and in a short time they were all taken sick. One named Jerry Thompson died, his wife is very low, and Miller and Murray are dangerously ill. The doctor pronounced that all were poisoned. Kate was arrested, but took poison while in jail and will probably die.

#### Forest Fires in Virginia.

Petersburg, September 11.—Forest fires destroyed a large quantity of valuable timber lands of under growth and corn wood in adjacent counties. At last accounts they were still burning. The fires extend over a large area. In some instances wheat fields were destroyed by the flames, and considerable game burned.

#### A Railroad Party.

Birmingham, Ala., September 11.—J. W. Johnston, president; R. H. Tenape, chief engineer; J. F. Foracer, superintendent; Alexander S. Brown, general freight and passenger agent, and other officers and friends of the Georgia Pacific railroad, arrived yesterday from Atlanta on the Georgia Pacific, now in course of construction and nearly completed. The party from Atlanta came the distance in thirteen hours, traversing the unfinished gap on horseback. The few bridges, trestles and tunnels now building will be finished and regular trains run from Atlanta to Birmingham by the end of November.
